

HAZLEWOOD TRAILERS

NEW

750 GPW Trailer

The compact, high volume, heavy duty General Purpose Trailer

- Bed size 48" x 48" with stepped 24" deep sides giving an upper body width of 64"
- Fully welded and hot dip galvanised chassis/body for maximum strength and durability
- All road lights recessed into steel channels for maximum protection
- Substantial 'A' frame and integral commercial jockey wheel
- Accepted in most local authority household waste sites without the need for vouchers etc, due to being unbraked and having body length less than 1.3m
- Avonride maintenance-free rubber in torsion suspension
- 24" high detachable steel tailboard for ease of loading
- 6ply commercial 10" tyres for low bed height
- Can be stored on end in most garages with at least 7' internal height
- 750kg gross weight
- 550kg payload (over half a tonne!)
- 4 internal lashing eyes and external rope hooks
- Built to last

Optional extras

- Spare wheel mounted
- 1350kg braked version
- Detachable mesh side extensions
- PVC Cover complete with elasticated rope
